Collection of research papers Kamianets-Podilskyi National Ivan Ohienko University. Pedagogical series / [Editorial Board Members: S.V. Optasiuk (Chairman, Scientific Editor) and other]. Kamianets-Podilskyi : Kamianets-Podilskyi National Ivan Ohienko University, 2022. Issue 28: Conceptual Background of Development of Contemporary Natural-Mathematic and Physics-Technological Education. 158 p.

Published since 1993 once a year

The contents of the volume reflect the authors' research and their experience while forming a natural-mathematic competence and the outlook of a future teacher within the framework of STEM-education. The topics of the volume consider: the leading lines of development and updating of natural-mathematic education (STEM-education); multidisciplinary and innovative structuring of contemporary natural and scientific education; combining of empirical and digital technologies in providing qualitative education for a professional in physics and technology; initiating and implementation of innovative projects, programs, methods, and technologies into natural and scientific education.

The volume is recommended for teachers of higher educational institutions and general secondary schools, students of all degrees, as well as for those interested in the development of contemporary natural-mathematic and physic-technological education.
